

# People of the Earth

C  
We are fighting for our future  
F C  
and the planet in our care.  
G  
We are people of the earth.  
F C  
We surround you like the air.

We are brown and white and red and yellow.  
We are he and she and they.  
With the hoop of all creation  
we defend the beauty way.

We are fighting for our future  
and the planet in our care.  
We are people of the earth.  
We surround you like the air.

Since life is short and love is long  
we unite to make our stand  
with our relatives of all that is  
for peace and justice in our land.

We are fighting for our future  
and the planet in our care.  
We are people of the earth.  
We surround you like the air.

We know a better world is coming  
when we work to heal the earth  
and live our lives in balance  
as people of true worth.

We are fighting for our future  
and the planet in our care.  
We are people of the earth.  
We surround you like the air.
